EXPERIENCE

Full Stack Developer | GenAI Lakes

Jul 2025 – Sep 2026

- Designed and developed scalable full-stack web applications using modern frontend and backend technologies.
- Built responsive and user-centric interfaces while integrating secure RESTful APIs and backend services.
- Optimized application performance, database operations, and system reliability through efficient debugging and testing practices.
- Collaborated with cross-functional teams to deliver AI-driven and web-based solutions aligned with business requirements.

Aether | Outlier.ai

May 12 2026 – Jun 20 2026

- Recorded multilingual voice samples using predefined prompts to support AI model training.
- Followed strict quality and language guidelines to ensure accurate and consistent speech data.
- Contributed to improving AI models' understanding of diverse languages, accents, and natural speech.

LLM Prompt Engineer | Turing

Aug 2025 – Jan 2026

- Delivered high-quality multi-turn AI conversations focused on realistic user–assistant interactions and contextual accuracy.
- Designed and optimized prompt workflows to improve reasoning, instruction-following, and response consistency.
- Evaluated AI-generated outputs using quality guidelines for relevance, clarity, and conversational flow.
- Collaborated with AI communities and peer reviewers to refine prompts and maintain evolving workflow standards.

AI Evaluation Specialist | Handshake AI

Jul 2026 – Present

- Design terminal-based benchmark tasks that evaluate coding agents on multi-step Linux, Git, Bash, and Python workflows.
- Build reproducible environments with automated validation so tasks score consistently across model runs and reviewers.
- Revise task specifications and graders after human review when an agent passes a check but misses the intended engineering behavior.

EDUCATION

Malla Reddy Institute of Technology and Science, (B.Tech in ECE)

CGPA: 7.6

Hyderabad, Telangana, India

November 2021 – August 2025

Telangana State Residential Junior College (Girls)

Percentage: 88

Huzurabad, Telangana, India

June 2019 – July 2021

Trinity High School

GPA: 9.2

Mancherla, Telangana, India

May 2018 – June 2019

PROJECTS

AI-BASED RAG APPLICATION

- Built a Retrieval-Augmented Generation (RAG) system for answering questions from documents.
- Implemented document ingestion, embeddings, and semantic search.
- Integrated LLM for accurate and context-aware responses.
- Tech: Python, FastAPI, React, PostgreSQL

MANAGER MONITORING ASSISTANT (AI STATUS CALL SYSTEM)

- Developed an AI-powered status call system to automate employee and field agent activity tracking through intelligent voice interactions.
- Built features for automated outbound calls, response transcription, activity monitoring dashboards, and performance analytics.
- Implemented alert mechanisms, call logging, and reporting modules to improve operational monitoring and productivity tracking.
- Contributed to full-stack development including frontend, backend APIs, database integration, and real-time reporting features.
- Tech Stack: React.js, Node.js, Express.js, MongoDB/MySQL, REST APIs, AI/Voice Integration, Dashboard Analytics.

AI AVATAR INTEGRATION SYSTEM

- Developed an interactive AI avatar for user engagement.
- Enabled real-time communication between users and AI avatar.
- Used for customer support and virtual assistant scenarios.
- Tech: Avatar APIs, React

TECHNICAL SKILLS

Languages: Python, Core Java, JavaScript

Web Technologies/Frameworks: React, HTML, CSS, Bootstrap

Databases: SQL, MongoDB, Postgresql

Developer Tools: Git, GitHub, VS Code, Postman, Ubuntu, Jira

Cloud Platforms: AWS, GCP (Basic)

CERTIFICATIONS & ACHIEVEMENTS

- Earned foundational cloud badges from **AWS** and **Google Cloud**, demonstrating a strong understanding of cloud concepts, services, and deployment practices.
- Completed certifications in **Generative AI**, **Prompt Engineering**, and **Machine Learning**, strengthening knowledge in LLM workflows and AI-driven applications.
- Achieved certifications in **React.js**, **JavaScript**, and **Python Programming**, showcasing proficiency in modern web and software development.
- Gained hands-on experience through certifications focused on **API Integration**, **Database Management**, and **Full-Stack Development** concepts.
- Successfully completed **AICTE Frontend Development Internship**, applying responsive UI and frontend development skills in practical projects.
